Become a
Certified Coder
and reap the
benefits that
last your entire
career!

**Medical Coding
Certification Camps
have been scheduled
all over the nation!**

Coding Cert .com

Get Certified. Get Ahead!

Top 5 Reasons to become a Certified Coder

- 1. Increase your income:** Over time, certified coders **earn 20% more** on average than their non-certified counterparts, according to the AAPC's recent salary survey of its members.
- 2. Show commitment to your career:** Having the CPC® credential demonstrates that you believe in the work that you do because you've taken the time and put in the effort to take the exam and maintain the credential. It also indicates that you're committed to doing the best job you can for your practice.
- 3. Validate your abilities in the job market:** A recent search on Monster.com showed that, of 310 available medical coding positions, employers were demanding certification for 128 of them. You can show you're a serious candidate just by getting certified.
- 4. Maintain compliance:** The last thing you want at your practice is fraud allegations. As a CPC®, you help ensure that you'll never have to face this because you have chosen to adhere to the AAPC's code of ethics, which helps protect both you and your practice.
- 5. Keep up with the latest developments:** The CPC® requires continuing education to maintain the credential. So your employer can be rest assured that you keep up with the latest developments that will affect your practice's profitability and compliance.

message

Dear Physician/Practice Manager,

Your approval to send your coder(s) to become CPC® certified means that they will gain invaluable tools to help them overcome the toughest coding and billing challenges you and your practice face every day. Not only will they reduce claim denials, increase charge captures, and maintain compliance, but they will also become your leading source for productivity, effectiveness and increased profitability.

There's no better way to instill loyalty in your employees than to show that you believe in them and the work they do. By sponsoring your coder(s) as they seek to obtain the CPC® credential, you're saying that you support them and their desires to do a better job for you.

You may likewise want to consider preparing your coders from the comfort of your office! If you have at least four (4) coders in your facility who have been waiting for the right opportunity to prepare for the CPC® exam, then you'll be glad to know we are open to extending you a preferential discount so that we can bring the preparation to YOU through hosting your own On-Site Medical Coding Certification Camps within your facility.

Let us help your coder(s) become certified. Our training camps are designed to prepare your coder(s) to take and pass the AAPC's CPC® exam with flying colors. This is one investment opportunity that you'll be glad you made.

Cordially,

Lavi

Medical Coding Certification Camps Course Overview

- 1. Exam-Taking Tips From The Pros**

You'll learn what the exam expects you to know, what format you can expect, and what you can skip. Every day, you'll tackle and review practice questions so that you're prepared for the real thing.
- 2. What the Exam Wants You To Know About ICD-9 CM**

You'll get the scoop on where your practical background is a big help, and where the exam is going to try to stump you.
- 3. Are You A Modifier Master?**

The CPC® exam makes you prove that you're an expert at using modifiers to tell just about every kind of coding story. Coding scenario questions test your modifier mastery over and over again. A modifier's presence or absence is often the only difference between answer "a" and answer "b." Don't worry. We'll make sure you shine.
- 4. Insider's Guide To The Integumentary Questions**

In this session our instructor gives you much more than "skin-deep" knowledge of the 10,000 series.
- 5. Musculoskeletal, Cardiovascular & Respiratory Surgery Review**

Time to bone up on the 20,000 series and learn techniques that make the 30,000 series a breeze. You'll learn the coding rules that will help you correctly answer the kinds of 20,000 and 30,000 questions that are almost certain to appear on the exam.
- 6. Down There: The 40,000 And 50,000 Series**

Get ready for a step-by-step tour of the topics you'll most likely encounter in the exam's digestive and genitourinary sessions. Don't worry. Your instructor will reserve some time for your questions, and you'll get plenty of time to hone your expertise in our practice tests.
- 7. Get Set For 60,000**

Learn the essential facts a CPC® examinee needs to know about endocrine, nervous, eye and ear surgery.
- 8. Anesthesia Coding Crash Course**

Unless you're an anesthesia coder, these exam questions can make you feel like you're in the Twilight Zone. But you don't have to fear anesthesia coding. Knowing just a few basic moves can help you choose the correct answer.
- 9. What The Exam Wants You To Know About E/M**

You already know a lot about E/M coding --- enough to know there's hundreds of mistakes you can make that will lower your overall exam score. In this session, we alert you to the 17 E/M coding mistakes that most commonly cause exam-takers to select incorrect answers.
- 10. Radiology, Path/Lab, Medicine Pointers You Can't Afford To Miss**

In this session, you'll venture into parts of the CPT book that may be very unfamiliar. But you'll feel much more at home when our expert gives you valuable insight into how these sections are organized, and where the exam might try to rip you up. OK. You might not actually ever like radiology coding, but you'll be able to tackle these questions with confidence.

- All above Plus:
 - Registration to the AAPC CPC® Exam to become credentialed

3. Medical Coding Certification Camp + AAPC CPC® + AAPC Membership

- All above Plus:
 - Registration to the AAPC CPC® Exam to become credentialed
 - One Year Membership to the AAPC

With your Medical Coding Certification Camp registration, you will receive this complete exam review which highlights important necessary to pass the CPC® exam.

Official CPC® Certification Study Guide

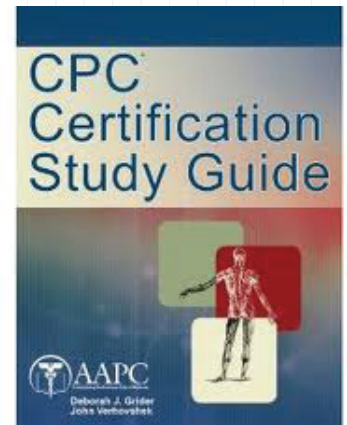

Authored by AAPC CEO Deborah Grider, CPC, CPC-H, CPC-P, CPMA, COBGC, CPCD, CCS-P

AAPC's Official CPC® Certification Study guide is specifically designed to help individuals prepare for the CPC® exam. Twenty chapters will guide you through a review of anatomy and terminology, ICD-9, HCPCS, and CPT® coding for each body system, E/M coding, anesthesia, radiology, pathology/laboratory and appropriate use of modifiers. This covers all the content sections found on the exam and will also provide you with testing tips for taking the AAPC's CPC® exam.

The study guide is not an introduction to coding but a review of coding concepts.

Key Features:

- Anatomy and Medical Terminology Review
- Practical Examples
- Testing Techniques for CPC® exam
- Questions designed to mimic the CPC® certification exam
- Each chapter includes ten review questions geared to test important coding concepts.
- Study guide written by same task force who wrote the CPC® exam
- Test your Knowledge exam with answers and rationales (35 questions)
